Filtration & Separation
incorporating DUST CONTROL, AIR & GAS CLEANING

INDEX
1990
Vol 27: Nos 1-6

The SUBJECT INDEX has been produced from the titles of all the articles in *Filtration & Separation* in 1990. The Keywords from each title (excluding common or noise words) are included and arranged alphabetically. To the right of each keyword appear the first 100 characters of the title and a five digit code. The code refers to the starting page of the article. The first two digits represent the year and the last three the page number – ie 90/360 refers to page 360 for 1990.

The AUTHOR INDEX lists all authors by page number.

PAGE NUMBERS: Jan/Feb: 1-64 Mar/Apr: 65-148 May/June: 149-224 July/Aug: 225-304 Sept/Oct: 305-380 Nov/Dec: 381-456

Aerosols: Removing Aerosols from Flue Gas Desulphurisation Systems ..... 90/200.
Aerosols: (fibrous): Evaluating the Collection Efficiency of Fibrous Aerosols ..... 90/107.
Alcohol residue treatment: Developing an efficient machine for alcohol residue treatment ..... 90/168.
Backwashing: Enhancing Electrofiltration with the aid of an Electro-osmotic Backwashing Arrangement ..... 90/42.
Batch: Sizing and Calculation of the Complete Cycle of Industrial Batch Centrifuges ..... 90/430.
Biotechnology: High Pressure Filtration – Opportunities for Effective Downstream Processing in Chemical Engineering and Biotechnology ..... 90/340.
Cartridge: Effect of Organic Fouling on the Life of Cartridge Filters ..... 90/114.
Centrifugal extraction: Coking sewage treatment by centrifugal extraction ..... 90/402.
Centrifugal pump: Selecting the right Centrifugal Pump for a Pressure Filter ..... 90/48.
Centrifuge: Optimising Decanter Centrifuges ..... 90/408.
Centrifuge: Sizing and Calculation of the Complete Cycle of Industrial Batch Centrifuges ..... 90/430.
Ceramic: Improvements in the Performance of Ceramic Media for Filtration of Hot Gases ..... 90/32.
Ceramic (microfilter): Dewatering of Fractionated Peat Slurry by Ceramic Microfilter and by Filter Press ..... 90/350.
Ceramic (porous): Comparative Physiochemical Studies of Porous Ceramics for Filtration of Hot Gases ..... 90/353.
Chemical Engineering: High pressure Filtration – Opportunities for Effective Downstream Processing in Chemical Engineering and Biotechnology ..... 90/340.
Classifying particles: Classifying Particles in a Slurry by Ultrasonic Filter ..... 90/28.
Coke processing: Coking sewage treatment by centrifugal extraction ..... 90/402.
Coal-fired: Filter Fabric Selection for Coal-Fired Flue Gases ..... 90/426.
Coating media: Developing coated fabrics for enhanced filtration ..... 90/394.
Collection efficiency: Evaluating the Collection Efficiency of Fibrous Aerosols ..... 90/107.
Conditioning (process): Sewage Sludge Conditioning by Polyelectrolytes ..... 90/122.
Cycle: Modelling, Simulation and Process Design in the Filter Cycle ..... 90/412.
Cycle: Sizing and Calculation of the Complete Cycle of Industrial Batch Centrifuges ..... 90/430.
Damping: Measuring the Damping of Filter Bag Motion using Phase Angle Determination ..... 90/280.
Decanter: Optimising Decanter Centrifuges ..... 90/408.
Desulphurisation: Removing Aerosols from Flue Gas Desulphurisation Systems ..... 90/200.
Dewatering: Dewatering technology and practice under discussion ..... 90/11.
Dewatering: High Performance Disc Filters for Dewatering Mineral Slurries ..... 90/38.
Dewatering: Solvent Pretreatment as an Aid in Dewatering ..... 90/264.
Dewatering: Dewatering of Fractionated Peat Slurry by Ceramic Microfilter and by Filter Press ..... 90/350.
Dewatering: Reducing the costs of dewatering and further processing ..... 90/163.
Dissolved-air flotation: Brasilia opts for the dissolved-air flotation process for its wastewater plants ..... 90/8.
Dissolved-air flotation Dissolved-air flotation used as primary separation for heavy metal removal ..... 90/70.
Downstream processing: High pressure Filtration – Opportunities for Effective Downstream Processing in Chemical Engineering and Biotechnology ..... 90/340.
Dust collectors: Comparison of Performance Characteristics of P84 Composite Fabrics and other Fabrics in Dust Collectors ..... 90/20.
Dust collectors: Pulse-driven Injectors for Fabric Dust Collectors – III: Comparative Performance of Model and Commercial Assemblies ..... 90/345.
Electric arc furnace: Gas Cleaning on Electric Arc Furnaces by High Efficiency Venturi System ..... 90/204.
Electrical: Microfiltration Enhancement by Electrical and Ultrasonic Force Fields ..... 90/192.
Electrostatic precipitators: Electrostatic Precipitators for the Containment of Toxic Gases ..... 90/269.
Electrofiltration: Enhancing Electrofiltration with the aid of an Electro-osmotic Backwashing Arrangement ..... 90/42.
Electro-osmotic: Enhancing Electrofiltration with the aid of an Electro-osmotic Backwashing Arrangement ..... 90/42.
Expression: Relative Liquid Removal in Filtration and Expression ..... 90/129.
Fabric: Pulse-driven Injectors for Fabric Dust Collectors – III: Comparative Performance of Model and Commercial Assemblies ..... 90/345.
Fabrics (composite): Comparison of Performance Characteristics of P84 Composite Fabrics and other Fabrics in Dust Collectors ..... 90/20.
Fibre-beds: Separation of Micro-dispersions in Fibre-Beds ..... 90/360.
Filter: Continuous Filtration Without Gas Throughput – Using Membrane Filter Media ..... 90/274.
Filter: Modelling, Simulation and Process Design in the Filter Cycle ..... 90/412.
Filter: Filter Fabric Selection for Coal-Fired Flue Gases ..... 90/426.
Filter (bag): Measuring the Damping of Filter Bag Motion using Phase Angle Determination ..... 90/280.
Filter (disc): High Performance Disc Filters for Dewatering Mineral Slurries ..... 90/38.
Filter (cartridge): Effect of Organic Fouling on the Life of Cartridge Filters ..... 90/114.
Filter (continuous): Producing and ordering continuous filter equipment ..... 90/330.
Filter (efficiency): Measuring Filter Efficiency by Optical High Concentration Single Particle Analyser ..... 90/188.
Filter (fibrous): Predicting Particle Capture in Fibrous Filters by a Unified Trajectory Mapping Approach ..... 90/289.
Filter (knitted fabric): Developing knitted fabric filter media for liquid filtration ..... 90/169.
Filter (microfilter): Dewatering of Fractionated Peat Slurry by Ceramic Microfilter and by Filter Press ..... 90/350.
Filter (pressure): Selecting the right Centrifugal Pump for a Pressure Filter ..... 90/48.
Filter (press): China challenges the world in developing a large-size filter press ..... 90/326.
Filter (press): Dewatering of Fractionated Peat Slurry by Ceramic Microfilter and by Filter Press ..... 90/350.
Filter (rotary vacuum): Evaluation of Optimal Knife Advances for Precoat Filtration on Rotary Vacuum Filters ..... 90/110.
Filter (rotary vacuum): Rotary Vacuum Filter Scale-up Calculations – and the use of Computer Spreadsheets ..... 90/435.
Filter (ultrasonic): Classifying Particles in a Slurry by Ultrasonic Filter ..... 90/28.
Filter (Wort): Designing a New Wort Filter – Underlying Theoretical Principles ..... 90/412.
Filtration: Improvements in the Performance of Ceramic Media for Filtration of Hot Gases ..... 90/32.
Filtration: Relative Liquid Removal in Filtration and Expression ..... 90/129.
Filtration: Effect of Surfactants on the Filtration Properties of Fine Particles ..... 90/197.
Filtration: High pressure Filtration – Opportunities for Effective Downstream Processing in Chemical Engineering and Biotechnology ..... 90/340.
Filtration: Comparative Physiochemical Studies of Porous Ceramics for Filtration of Hot Gases ..... 90/353.
Filtration (batch): Applying robots to batch filtration equipment ..... 90/73.
Filtration (continuous): Continuous Filtration without Gas Throughput – Using Membrane Filter Media ..... 90/274.

Filtration (direct): Brasilia changes successfully to direct filtration for its water treatment plant ..... 90/71.
Filtration (equipment): How costs can be correlated to certain parameters of filtration equipment ..... 90/10.
Filtration (precoat): Evaluation of Optimal Knife Advances for Precoat Filtration on Rotary Vacuum Filters ..... 90/110.
Filtration (microfiltration): Microfiltration using a Dynamically Formed Membrane ..... 90/184.
Filtration (microfiltration): Microfiltration Enhancement by Electrical and Ultrasonic Force Fields ..... 90/192.
Particles (fine): Effect of Surfactants on the Filtration Properties of Fine Particles ..... 90/197.
Flow-field: Studying the Flow Field in a Hydrocyclone with no Forced Vortex ..... 90/276.
Flow-field: Studying the Flow Field in a Hydrocyclone with no Forced Vortex – Pt II: Turbulence ..... 90/356.
Flue gas: Removing Aerosols from Flue Gas Desulphurisation Systems ..... 90/200.
Flue gas: Filter Fabric Selection for Coal-Fired Flue Gases ..... 90/426.
Forced vortex: Studying the Flow Field in a Hydrocyclone with no Forced Vortex ..... 90/276.
Forced vortex: Studying the Flow Field in a Hydrocyclone with no Forced Vortex – Pt II: Turbulence ..... 90/356.
Gas (cleaning): Gas Cleaning on Electric Arc Furnaces by High Efficiency Venturi System ..... 90/204.
Gas: Continuous Filtration Without Gas Throughput – Using Membrane Filter Media ..... 90/274.
Gases: Improvements in the Performance of Ceramic Media for Filtration of Hot Gases ..... 90/32.
Gases (toxic): Electrostatic Precipitators for the Containment of Toxic Gases ..... 90/269.
High-pressure: High pressure Filtration – Opportunities for Effective Downstream Processing in Chemical Engineering and Biotechnology ..... 90/340.
Hot gases: Comparative Physiochemical Studies of Porous Ceramics for Filtration of Hot Gases ..... 90/353.
Hydrocyclone: Studying the Flow Field in a Hydrocyclone with no Forced Vortex ..... 90/276.
Hydrocyclone: Studying the Flow Field in a Hydrocyclone with no Forced Vortex – Pt II: Turbulence ..... 90/356.
Injectors: Performance of Model and Commercial Assemblies ..... 90/345.
Knife advance: Evaluation of Optimal Knife Advances for Precoat Filtration on Rotary Vacuum Filters ..... 90/110.
Liquid-removal: Relative Liquid Removal in Filtration and Expression ..... 90/129.
Membrane: Microfiltration using a Dynamically Formed Membrane ..... 90/184.
Membrane: Taking steps to meet the wide-ranging demand for membranes ..... 90/246.
Membrane: Continuous Filtration Without Gas Throughput – using Membrane Filter Media ..... 90/274.
Micro-dispersion: Separation of Micro-dispersions in Fibre-Beds ..... 90/360.
Mineral processing: Meeting the demands of the mineral processing industry ..... 90/327.
Mineral processing: Applying filtration equipment to the mineral processing industry ..... 90/402.
Modelling: Modelling Simulation and Process Design in the Filter Cycle ..... 90/412.
Non-wovens: Developing filtration papers to the highest levels ..... 90/175.
Optical: Measuring Filter Efficiency by Optical High Concentration Single Particle Analyser ..... 90/188.
Organic fouling: Effect of Organic Fouling on the Life of Cartridge Filters ..... 90/114.
Particle capture: Predicting Particle Capture in Fibrous Filters by a Unified Trajectory Mapping Approach ..... 90/289.
Peat: Dewatering of Fractionated Peat Slurry by Ceramic Microfilter and by Filter Press ..... 90/350.
Phase angle determination: Measuring the Damping of Filter Bag Motion using Phase Angle Determination ..... 90/280.
Polyelectrolytes: Sewage Sludge Condtioning by Polyelectrolytes ..... 90/122.
Porous: Comparative Physiochemical Studies of Porous Ceramics for Filtration of Hot Gases ..... 90/353.
Precipitators: Electrostatic Precipitators for the Containment of Toxic Gases ..... 90/269.
Process design: Modelling, Simulation and Process Design in the Filter Cycle ..... 90/412.
Pulse-driven: Pulse-driven Injectors for Fabric Dust Collectors – III: Comparative Performance of Model and Commercial Assemblies ..... 90/345.
Pump: Selecting the right Centrifugal Pump for a Pressure Filter ..... 90/48.
Rotary: Evaluation of Optimal Knife Advances for Precoat Filtration on Rotary Vacuum Filters ..... 90/110.
Rotary: Rotary Vacuum Filter Scale-up Calculations and the use of Computer Spreadsheets ..... 90/435.
Separation: Separation of Micro-dispersions in Fibre-Beds ..... 90/360.
Separation (equipment): Recognising the value of separation equipment throughout industry ..... 90/8.
Sewage: Sewage Sludge Conditioning by Polyelectrolytes ..... 90/122.
Sewage: Coking sewage treatment by centrifugal extraction ..... 90/402.
Sewage treatment: Membio sewage treatment plant proves a world leader ..... 90/327.
Sieving: Proven benefits of using precision wire mesh ..... 90/391.
Simulation: Modelling, Simulation and Process Design in the Filter Cycle ..... 90/412.
Single particle analysis: Measuring Filter Efficiency by Optical High Concentration Single Particle Analyser ..... 90/188.
Sludge: Sewage Sludge Conditioning by Polyelectrolytes ..... 90/122.
Slurries: High Performance Disc Filters for Dewatering Mineral Slurries ..... 90/38.
Slurry: Classifying Particles in a Slurry by Ultrasonic Filter ..... 90/28.
Slurry: Dewatering of Fractionated Peat Slurry by Ceramic Microfilter and by Filter Press ..... 90/350.
Solvent pretreatment: Solvent Pretreatment as an Aid in Dewatering ..... 90/264.
Spacing-Analysis: Theoretical Spacing Analysis of Tubular Filter Elements ..... 90/25.
Surfactant: Effect of Surfactants on the Filtration Properties of Fine Particles ..... 90/197.
Thickeners (flocculant control): Flocculant control of thickeners enters new era ..... 90/404.
Thickeners (high-rate): Why high-rate thickeners are now preferred by the gold industry ..... 90/170.
Tubular Filter Elements: Theoretical Spacing Analysis of Tubular Filter Elements ..... 90/25.
Turbulence: Studying the Flow Field in a Hydrocyclone with no Forced Vortex – Pt II: Turbulence ..... 90/356.
Ultrasonic: Classifying Particles in a Slurry by Ultrasonic Filter ..... 90/28.
Ultrasonic Force Fields: Microfiltration Enhancement by Electrical and Ultrasonic Force Fields ..... 90/192.
Unified Trajectory Mapping: Predicting Particle Capture in Fibrous Filters by a Unified Trajectory Mapping Approach ..... 90/289.
Vacuum: Rotary Vacuum Filter Scale-Up Calculations – and the use of Computer Spreadsheets ..... 90/435.
Venturi system: Gas Cleaning on Electric Arc Furnaces by High Efficiency Venturi System ..... 90/204.
Wastewater: Brasilia opts for the dissolved-air flotation process for its wastewater plants ..... 90/8.
Water-recovery: Process Water Recovery at a Deep Navigation Colliery – A Novel Approach ..... 90/118.
Water treatment: Brasilia changes successfully to direct filtration for its water treatment plant ..... 90/71.
Water treatment: Purifying water with high manganese and iron concentrations ..... 90/171.
Wort: Designing a New Wort Filter – Underlying Theoretical Principles ..... 90/421.
